

## **Boundless charging – the new World USB Charger from SKROSS**

### **Never travel without a charge**

Diepoldsau, February 2011. **Mobile phones, MP3 players, tablet PCs, game consoles – the actual trend is toward USB-capable devices. The World USB Charger from SKROSS can supply anything with energy, anywhere in the world, with absolute reliability, exceptional speed and total simplicity.**

With the World USB Charger, travellers no longer have to carry a variety of adapters. The patented all-in-one country slider system always offers the right connection no matter what electrical standard is used at the travel destination. From Shanghai, to Nairobi to Cancun, this universal prodigy from the Swiss company offers complete flexibility and unbounded independence.

The high charge current strength of 1300 mA as well as two integrated USB ports allows simultaneous charging of two devices at maximum speed, making the charger ideal for use at home as well.

The compact size (fits in your palm), light weight and cool design are also impressive, not to mention Swiss quality in terms of reliability and safety.

The World USB Charger is available on our online shop, from selected retailers and on duty free and airline shops all over the world. More information on [www.skross.com](http://www.skross.com).

SKROSS – The Original for boundless mobility for all electronic travel companions. The compact, patented world adapters and USB chargers from the globally leading Swiss company are simple to use, work on all continents and satisfy the highest international safety standards. With Swiss quality, ingenuity and innovation, SKROSS develops indispensable all-rounders for every kind of travel: the modular World Adapters, the specific Country Adapters and the flexible World USB Charger are capable of replacing a wide range of chargers and power adapters. SKROSS helps free up luggage space while ensuring easy access to power in over 150 countries!
