TRENDnet Announces Wireless N Portfolio Compatibility with the Ratified IEEE 802.11n Specification

TORRANCE, Calif. -September 23, 2009-[TRENDnet](#), a best-in-class wired and wireless networking hardware brand, today announces the compatibility of TRENDnet's entire wireless n product portfolio with the ratified IEEE 802.11n specification. All TRENDnet wireless n products are compatible with the IEEE 802.11n specification with no required driver / firmware upgrade.

The following TRENDnet wireless n products are currently compatible with the ratified IEEE 802.11n specification and are scheduled for a driver / firmware upgrade if needed:

- TEW-623PI (v3.0R): 300Mbps Wireless N PCI Adapter
- TEW-632BRP (A1.0R): Wireless N Home Router
- TEW-634GRU (v1.0R): 300Mbps Wireless N Gigabit Router with USB Port
- TEW-635BRM (v1.0R): 300Mbps Wireless N ADSL2/2+ Modem Router
- TEW-637AP (v2.0R): 300Mbps Wireless Easy-N-Upgrader
- TEW-638APB (V2.0R): 300Mbps Wireless N Access Point
- TEW-639GR (v1.0R): 300Mbps Wireless N Gigabit Router
- TEW-641PC (v1.0R): Wireless N PC Card
- TEW-642EC (v1.0R): Wireless N Express card
- TEW-643PI (v1.0R): Wireless N PCI Adapter
- TEW-644UB (v1.0R): Wireless N USB Adapter
- TEW-645UB (v1.0R): High Power Wireless N USB Adapter
- TEW-647GA (v2.0R): Wireless N Gaming Adapter
- TEW-648UB (v1.0R): 150Mbps Mini Wireless N USB Adapter
- TEW-652BRP (v2.0R): Wireless N Home Router
- TEW-654TR (v1.0R): 300Mbps Wireless N Travel Router Kit
- TEW-664UB (v1.0R): 300Mbps Dual Band Wireless N USB Adapter
- TEW-671BR (v1.0R): 300Mbps Concurrent Dual Band Wireless N Router

The following TRENDnet wireless n products are currently compatible with the ratified IEEE 802.11n specification and are not scheduled for a driver / firmware upgrade:

- TEW-621PC (v1.0R, v2.0R)
- TEW-623PI (v1.0R, v2.0R)
- TEW-624UB (B1.0R)
- TEW-630APB (v1.0R, v2.0R)
- TEW-631BRP (v1.0R, v2.0R, v3.0R)
- TEW-633GR (v1.0R, v1.1R)
- TEW-636APB (v1.0R)
- TEW-637AP (v1.0R)
- TEW-638APB (v1.0R)
- TEW-647GA (v1.0R)
- TEW-652BRP (v1.0R)
- TEW-672GR (v1.0R)

All TRENDnet wireless n products under development are scheduled to either be released with firmware in compliance with the ratified IEEE 802.11n specification, or to receive a driver / firmware upgrade following product launch.
