

DVB-T RECEIVER MULTIMEDIA
PVR READY over USB
HDMI™ OUT, —USB™ IN/OUT

Premio ST5

**HDMI
OUTPUT
for TV.**

**RECORD
directly your TV
programs directly
on a USB stick
or external HDD.**

**TIME
SHIFTING***

-  Record all your digital TV programs (MPEG2) on external storage device (USB key; HDD...).
-  **ECO** Low consumption in stand-by (< 2W).
- **TIME**  Time Shift function available with an external storage device connected.
SHIFTING Take a break while watching a film without losing any of the story
-  **HDMI™** HDMI output to your TV with high quality built-in "upscaling" to your desired resolution.
- **MULTIMEDIA** : Listen to audio files, watch Xvid or MPEG1/2 films or a photo slideshow.

(*)Time Shifting: One can put a machine on "Pause" to answer the 'phone or make a cup of tea, and then be able to continue watching the program you broke off. It'll work for a pause of even half an hour.

- **Timer**: The PVR recorder may need an external USB drive to be connected. Apart from its PVR (Personal Video Recorder) function, the Timer can turn on or off the machine, set a channel when it turns on, or show a message such as birthday greetings. The Timer can produce events on a "once only", daily, monthly or yearly basis.
- **Upscaling**: Increase picture definition.
