Capgemini Honored as the Recipient of EMC Global Innovation Award

Capgemini Also Recognized as EMC's EMEA Partner of the Year

Paris, 28 May, 2015 – [Capgemini](#), one of the world's foremost providers of consulting, technology and outsourcing services, today announced it has received the prestigious EMC Global Innovation Award from [EMC Corporation](#). The award was presented to Capgemini during the Global Partner Summit at EMC World 2015 in recognition of its new data analytics capabilities foundational to the Business Data Lake, designed for use by the automotive, oil and gas, and security industries. At the event, Capgemini was also honoured as the EMC EMEA Partner of the Year.

These awards signify Capgemini's continued leadership in the insights and data space. Capgemini has been previously recognized with the EMC Global Federation Award (2014), Enterprise Content Division (ECD, formerly IIG) EMEA Partner of the Year 2013 and the ECD EMEA Innovation Award 2013.

"Capgemini is delighted to be recognized as an innovative thought leader for big data and analytics and hybrid cloud adoption. This is a great reflection of the journey we have taken with EMC in building new analytics outcomes for our clients. With EMC we have a partnership that can both push the boundaries in creating new insights and then industrialize their delivery to the business," said Charlie Li, Senior Vice President and Head of Global Channels and Partners from Capgemini.

"Capgemini has been an outstanding partner and has been critical in driving forward IT transformation through Big Data, joint solution creation, and incubating enterprise hybrid cloud adoption," said Jay Snyder, Senior Vice President, Global Alliances for EMC Corporation. *"For these achievements as well as its dedication to customer solutions powered by best-of-breed EMC technology, Capgemini embodies innovation and I am thrilled to recognize the entire Capgemini team with this award."*

Capgemini collaborated with Pivotal on the Business Data Lake, and has continued to work closely with EMC to both develop new insights capabilities and industrialize deployment to businesses via the EMC Federation [Business Data Lake](#) solution. Built on the [Data Lake foundations](#), enterprises can create and take insight driven actions that can transform their businesses, including industry innovations via AutomotiveConnect, Oil & Gas Predictive Asset Maintenance and Production Optimization, and security solutions around Anomalous Behavior Detection. Through Storage Resource Optimization services, Capgemini has also supported the deployment of

EMC[®] ViPR[®] SRM through as-a-service assessment tools that identify immediate customer efficiency opportunities.

About Capgemini
